Certificate in Acupuncture for Physiotherapists (Hong Kong 2023)

Objectives

This course is designed to meet the requirement of the **International Acupuncture Association of Physical Therapists (IAAPT)** in the basic requirement for acupuncture education for physiotherapists to use the technique. Physiotherapists undertaken the course should be able to perform acupuncture and some related techniques based on a contemporary approach safely and effectively in the treatment of common musculoskeletal and neurological conditions.

Program Design

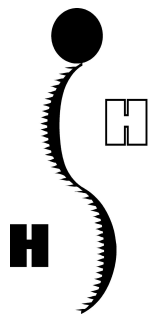

The program is designed to be delivered in **80 Contact Hours** (Lecture 24 hours, Practical 32 hours, Placement 16 hours, Presentation and Exam. 8 hours):

1. Basic Concepts of Contemporary Acupuncture and Traditional Chinese Acupuncture.
2. Safe Application of Acupuncture and Related Techniques.
3. Applying Evidence Based Practice to Acupuncture in Physiotherapy
4. Application of Acupuncture for Pain and Common Musculoskeletal Disorders
5. Introduction to Acupuncture for Neurological Disorders.
6. Student Presentations.
7. Written and Practical Examinations.
8. Clinical Placement.

Self study of at least 160 hours is expected from the students in readings, assignments, practice, preparation for presentation and examinations.
